# TOTAL Greases

## Total Grease Key Range

### Your Constraints
- High costs of equipment failures and shutdowns
- Cost reduction pressures to reduce grease consumption & increase care interval intervals
- Severe operating conditions: water corrosion, wide range of operating speeds, heavy loads, dust and particulates in the environment
- Compliance with stringent environmental, hygiene and safety regulations

### Our Solutions
- Full range of greases covering the needs of all industries, applications and international specifications, including:
  - Greases for heavily loaded applications encountered in steel and cement manufacturing in Mining
  - Greases for high-temperature applications in the aerospace and petrochemical industry
  - ISO 21195 certified and NSF-H1 registered food-grade greases designed for food and beverage industries
  - Multipurpose greases designed for outdoor applications such as forestry, agriculture, mining and hydraulic/electric power generation
- Customer services and technical assistance provided by dedicated professionals

### Your Benefits
- Increase equipment reliability and operation performance
- Reduce operating and maintenance costs through less machine downtime and longer lubrication intervals
- Mitigate any potential harmful effects to the environment and to your machinery
TOTAL Greases
Rely on high technology greases for severe applications

The right choice in lubricants

A major player
With our production, supply chain and commercial presence in more than 160 countries, we are ideally positioned to engage our customers at any stage of business to cover all your needs.

References & OEMs
TOTAL Lubricants cooperates with equipment manufacturers to create high technology products for optimal performance and protection of your machinery.

5 good reasons for choosing TOTAL

Support and partnership
Thanks to local technical presence, we provide a high level of service to optimise your Total Cost of Ownership.

Quality and environment
TOTAL Lubricants is the guarantee of high quality. From the initial design stage, our R&D teams work to develop products that respond to current and future needs.

Innovation & Research
TOTAL invests in technologies to find the most suitable components to reach optimal efficiency through formulations created in our Research Centers.

CERAN XM 220
High quality, multipurpose and EPL grease with good resistance to water.

NEVASTANE XS 80
High performance, multipurpose and EPL synthetic grease, suitable for multipurpose food contact.

ALTIS SH 2
Very high performance synthetic grease.

Ceramic Suspension Complex
HDL grade: 1-2
Operating temperature: 250°C max.

Lube-Shuttle®
A new solution specially designed for you.

The Cartridge
Economical
No grease remains in the cartridge
Clean
The grease doesn’t spill when loaded
Practical
No components to open the cartridge
Eco-friendly Recycled Cartridge
Identification At A Glance
The type of grease is easily identifiable

Hand Free Grease Gun
Practical
Operated with just one hand
Easy
Easy to use

*Available CERAN XM, NEVASTANE XE and ALTIS SH 2

Greasymat®
A type of greases for use with Greasymat® have been carefully selected to meet all your applications.
